Violence Prevention: Securing Confidence and Safety

We are painfully aware of violent episodes occurring at the workplace, and at home. CCA provides on-going services that reduce the probability that violence will occur and implements workplace violence prevention educational programs. CCA's capability to advise management immediately (as events unfold or in prevention of their on-set) is a core competency of the firm. For more than 25 years, CCA has handled managerial crises involving violence and has partnered with Fortune 500 companies to prevent violent episodes.

CCA offers 24/7 immediate crisis prevention to all employees and management. This service is available 365 days per year. Whether an employee is in fear of being a victim of violence or whether a manager is concerned about the behavior of a potentially threatening employee, CCA is there to help—immediately.

On-site violence prevention educational seminars are tailored to the specific concerns of the client. CCA customizes based upon history, culture and any immediate concerns present at the client site. Violence prevention programs are designed and delivered by licensed clinicians, counselors and psychologists.

The business outcome is improved managerial vigilance and intelligence enabling violence prevention.
